

*Help us honor former Japanese-American students:*

The State Center Community College District (SCCCD) will present honorary degrees to all Japanese-Americans who were students during World War II and had their education disrupted by incarceration in internment camps. Nisei students attending Reedley College or Fresno City College in 1941/1942 are eligible to receive the honorary degree. Families of deceased former students may apply on behalf of their relatives to accept the honorary degree for them. The colleges need your assistance in identifying potential honorees. If you know of any potential recipients, contact Deborah Ikeda at 559-325-5214 or email [deborah.ikeda@sccd.edu](mailto:deborah.ikeda@sccd.edu). The colleges will validate the honoree's attendance and contact the family regarding the ceremony. Please provide potential honoree's first and last name, date of birth and any other names that may have been used (i.e. maiden name). In addition, please provide contact information including your name, telephone number with area code, street address and email.
